Stainless Steel Performance Valve Sets

We continually beat up valve manufacturers on large quantities of valves. When they compete with each other to increase their sales, we pass the savings on to you. These are the same valves that other people are selling, but up to 65% less! These valves are manufactured of high grade 21-4N stainless steel material. Quality one-piece forgings. Valve stems are hard chromed and micro polished for an exceptional finish and to reduce wear. Fully machined combustion faces. Hardened tips to resist valve stem wear.

- One piece Forgings
- 21-4N Stainless steel
- Chrome stems
- Fully machined & polished
- Hardened tips
- Great quality

STAINLESS STEEL ROLLER ROCKERS

Features extra large full needle bearing trunnions designed to increase horsepower, provide quicker response,increase durability and allow high RPM stability with no deflection. The large roller tip provides less friction and a smooth path over the valve tip which reduces wear on the valve to rocker contact area.Sets of 16. Posi-locks included.

BILLET READY-TO-RUN DISTRIBUTORS

State of the art circuitry design for use with or without an external ignition control, like a CDI box. Perfect for street/street-strip or other applications that a vacuum advance is desired. For strength & reliability, they are constructed with a CNC machined billet aluminum body & hardened shaft.with a sealed ball bearing on top & a sintered steel bushing on bottom.High output magnetic pickup for accuracy, adjustable mechanical & vacuum advance. Includes 3-wire hookup & dielectric cap w/brass terminals/rotor.

NEW ULTIMATE DUTY BELT DRIVES

The Ultimate Camshaft Drive for your competition engine. Manufactured from the finest materials on state of the art CNC machining centers. These belt drives will deliver reduced valve train harmonics, precise valve timing and longer valve spring life. A fully rollerized thrust housing means less friction. A full 20" of Valve timing adjustment.
