Stainless Steel High Performance Valve Sets

We continually beat up valve manufacturers on large quantities of valves. When they compete with each other to increase their sales, we pass the savings on to you. These are the same valves that other people are selling, but up to 65% less! These valves are manufactured of high grade 21-4N stainless steel material. Quality one-piece forgings. Valve stems are hard chromed and micro polished for an exceptional finish and to reduce wear. Fully machined combustion faces. Hardened tips to resist valve stem wear.

Valve Special!

- One piece Forgings
- 21-4N Stainless steel
- Chrome stems
- Fully machined & polished
- Hardened tips
- Great quality

Lash Caps

Because today's racing engines run at higher and higher rpm levels and the cam profiles are extremely harsh, the tip of the valve stem is subjected to a tremendous amount of pounding. Precision machined and ground perfectly flat to maintain accuracy of valvetrain adjustment. They fit the valve stems well and can be removed with relative ease because of a tiny hole to relieve the suction created when removing the lash cap. Sold in sets of 16.

Chev SB 8mm Lightweight Valve Train Conversion

Designed for better valve control and increased valvetrain stability. These lightweight conversions start with valves with smaller 8mm stems. They feature inverted conical valve springs and small 1.055" diameter retainers for even more weight savings. Because of this reduction in weight, you can use less spring pressure to handle more rpm and more aggressive cam profiles. Valves and valve locks are bead lock design for better clamping force. Perfect for occasional use at the strip, but durable for the street. Great for hydraulic/mechanical flat tappet or hydraulic roller cam applications. **Note:** Conversion requires use of either 8mm valve guide liners or 8mm valve guides (listed below).

Each Complete Kit Includes:

- 16 Stainless Steel Valves with 8mm Valve Stems
One piece, Chrome Stem, Hardened Tip
- 16 Howards Cams™ Beehive Valve Springs
108 @ 1.800", 345 @ 1.225", 1.150" Coil Bind, .600" Max Lift
